# Introduction and invitation to sponsors

Dear EGATEC Community,

Following the successful fifth edition of the European Gas Technology Conference in Hamburg, Germany in 2022 we are more than happy to announce the 6th EGATEC in 2024.

The gas industry is changing more than ever before: climate change debates, new strategies connected with the use of hydrogen and continuing technological development are bringing a considerable change to the market.

For the EGATEC conference, the leading European gas technology and research associations join forces to shape the future of gas technology together with representatives of the gas industry. The conference organisers are pleased to offer members of MARCOGAZ and GERG as well as other companies the opportunity to become a sponsoring partner of EGATEC 2024 and demonstrate their commitment to creating a greener Europe through gas innovation.

## We are looking forward to a successful EGATEC 2024!

**Liam Nolan**  
President  
MARCOGAZ

**Dr Murès Zarea**  
President  
GERG

# About EGATEC 2024

The European Gas Technology Conference 2024 (EGATEC 2024) brings together high-level representatives from the European gas industry, universities, companies, and many other stakeholders to provide a platform to exchange knowledge and experience on the challenges and opportunities the energy transition and decarbonization efforts delivers for the gas industry.

The EGATEC 2024 will consider and discuss new strategies and innovative ideas to facilitate the gas industry's contribution to net-zero goals and upscaling state-of-the-art technologies including new gases and power-to-gas.

Organized under the auspices of MARCOGAZ and GERG, the conference is scheduled to take place on 18-19 June 2024 in Hamburg. The conference is hosted by the the Danish Gas Technology Centre (DGC), the German Technical and Scientific Association for Gas and Water (DVGW) and Gasunie.

## About

Delegates will come from the European energy industry, research organisations, academia, government, etc.

**A total conference attendance of 200-250 from all of Europe and overseas is expected.**

### **Participants / Target Group**

Conference delegates will be

- ▶ Gas technology executives: CEOs, CTOs & senior management of gas companies
- ▶ contractors of refineries
- ▶ project / operation managers, technical managers, safety managers & engineers
- ▶ gas engineers, researchers & consultants
- ▶ service & supply companies
- ▶ market professionals

who understand that innovation and technology is essential for the future of energy gases and natural gas in particular.

### **Scientific Content**

The technical programme is developed by the Programme Committee and the Poster Selection Committee.

# Sponsoring Packages

## DIAMOND

★★★★

- ▶ general recognition as main sponsor of EGATEC 2024
- ▶ acknowledgement in conference opening remarks
